

# Blue Sky Blue

Pete Murray

Blue sky blue  
Come on shine your rays  
On another fool's day  
Just to help them get right through  
All the cash is down  
You're on the ground  
But your heart is mighty true  
It's up to you now

Blue sky blue  
Come on close those eyes  
and realize  
What your dreams want you to do  
If the dream is gone  
It ain't all wrong  
Just gotta drag yourself on through  
It's up to you now

You say love is going to set me free  
I'd move heaven and earth just to be  
One step closer to your family tree  
Take my soul now as your guarantee

Blue sky blue  
Come on take your aim  
And play my game  
I'll open heaven up for you  
Look into my eyes  
And realize  
There is no spell placed on you  
It's up to you now
