

## Class A

Pete Murray

Be yourself  
If you wanna know your name  
Be your friends  
And if you ever want to pay

All of this place  
Is all about to fall  
Right down on you  
If you change what you say

And if you wanna hide yourself  
Be the one  
It's hard to know how far you go

All of this place  
Is all about to fall  
Right down on you  
If you change what you say

And if you wanna hide yourself  
Be the one  
It's hard to know how far you go

All of this place  
Is all about to fall  
Right down on you  
If you change what you say

And you know what you know  
And you see what you bend  
Can't believe it's insane  
Come on and be what you mean
