

Fly With You

Pete Murray

First time that I saw your face
I was blown away without a trace
I felt so alone on a busy street
When you passed me by
I felt my feet melt away
Melt away

I pray to God that I could meet
Somebody like the girl that I'd just seen
Someone that can stop me dead
Someone that will spin round, in my head, all day
In my head, all day

Someday I will fly with you
Someday I will fly with you

That night I saw her again
Was the first time I touched her hand
She made me feel so warm
We talked all night, til the dawn came our way
Til the dawn came our way

But the timing was all wrong
When I met the one, I should've known
Instead I walked away
Leaving behind my destiny on that day
My destiny on that day

Someday I will fly with you
Someday I will fly with you

But I still see her face
In my mind, it's the only place
And we will meet again
And I will touch your hand again, on that day
Your hand again, on that day

Someday I will fly with you
Someday I will fly with you
Someday I will fly with you
Someday I will fly with you
