

# Miss Cold

Pete Murray

Hello Miss Cold  
I came by to give you the season  
A hot day you're going to pay  
Don't you know you're wanted for treason  
Oh no, why is it so?  
You have always been so freezin'  
To me you couldn't see I only wanted to be just pleasin'

And after all this time you're next to me'  
You still turn me around  
And I can let my destination be here right now  
Breaking up your ice you'll see  
Burn it all down  
And when my sun comes out it's destiny  
I'll be warming up your frozen ground.

Hello Miss Cold  
I got my lemons and I'm ready for squeezing  
One way you're going to stay  
Ain't no time left for you to reason  
Oh grace you're out in space  
You've already started your wheezing  
Today you'll be saved  
I'm going to stop all of your bleeding

And after all this time you're next to me  
You still turn me around  
And I can let my destination be here right now  
Breaking up your ice you'll see  
Burn it all down  
And when my sun comes out it's destiny  
I'll be warming up your frozen ground
