

# Never Let The End Begin

Pete Murray

I wanna take this day  
I wanna hold it right out next to you  
So you can see it's perfect way  
You know there's nothing I'd change of you

So you can take me as I am  
Or you can watch me burn right next to you  
Don't you know or understand  
There's nothing I wouldn't do for you

I wanna be the one to know you  
Hold you right under my skin  
I wanna be the one to love you  
Never let the end begin

I wanna take your face  
I wanna picture it in a frame for you  
So you can see it's perfect grace  
You know there's nothing to better you

I wanna be the one to know you  
Hold you right under my skin  
I wanna be the one to love you  
Never let the end begin

Hope you can see it in the end  
Hope you can sing yourself another tune  
Come on and let yourself begin  
'Cause I've been waiting here right next to you

I wanna be the one to know you  
Hold you right under my skin  
I wanna be the one to love you  
Never let the end begin

I wanna be the one to know you  
Hold you right under my skin  
I wanna be the one to love you  
Never let the end begin
