

Remedy

Pete Murray

She just likes her coffee
Hot and black and in the morning sun
Proceeds to read the papers
Right on through until the sport is done
Don't you know

I will bring you roses
Big enough to brighten up your day
And I don't hold your hand now
But I'm sure I'm well on my way
Don't you know
You will be the sun
When you rise you start my day
And you will be the one
Who controls my every way
Can you be
Can you be my remedy

You will be the sun
When you rise you start my day
And you will be the one
Who controls my every way
Can you be
Can you be my remedy

Oh can you be
Can you be my remedy

Oh can you be
Can you be my remedy
Bup, bup bah...
