## See The Sun

## **Pete Murray**

Where's a word That we learn to know And where's a word That we should go

Can you be the one Can you see the sun With me

Hate's a word That we learn to use And vain's a sign That is old and abused

Can you be the one Can you see the sun With me

I'm here and I'm never gone I'm here and I'm never gone I'm here and I'm never gone I'm here and I'm never gone

Can you be the one Can you see the sun With me With me With me With me
