

This Pill

Pete Murray

Two years and I feel like I'm over this pill
Is there a reason I wonder
And still, you just light up the way

I burn like the sunsets above me two feet
My eyes are so tired I can't sleep
And it's only a day

And all of this heart is waiting for you
And all of this mind falls apart for you

Two years and I feel like I'm over this pill
Is there a reason I wonder
And still you just light up the way

Your soul seems to guide like a bird
And still even though with no word
I will hold a place for your love

Two years and I feel like I'm over this
Is there a reason I wonder
And you still just laugh and wave
