## This Pill

**Pete Murray** 

Two years and I feel like I'm over this pill Is there a reason I wonder And still, you just light up the way

I burn like the sunsets above me two feet My eyes are so tired I can't sleep And it's only a day

And all of this heart is waiting for you And all of this mind falls apart for you

Two years and I feel like I'm over this pill Is there a reason I wonder And still you just light up the way

Your soul seems to guide like a bird And still even though with no word I will hold a place for your love

Two years and I feel like I'm over this Is there a reason I wonder And you still just laugh and wave
