

You Pick Me Up

Pete Murray

You saved me like you somehow owed me
Passion now flowing in my veins
Breathless days can sit alone in silence
You brought me sun and took away the rain

Honestly it's not a phase
Now I stand where before I couldn't raise
Even a smile just to get me through the days
You pick me up, you pick me up

You took me set my world on fire
Red stop light but you only see green
No mistakes you march on like you're wired
You lift me up to the greatest that I've been

Honestly it's not a phase
Now I stand where before I couldn't raise
Even a smile just to get me through the days
You pick me up, you pick me up

You pick me up making me fire
Do you even know how much you save

Take me now I have what I wanted
Bonfire high I'm all warm inside
Thank you how you've been more than I needed
There's no black clouds there is no black a all

Honestly it's not a phase
Now I stand where before I couldn't raise
Even a smile just to get me through the days
You pick me up, you pick me up
