Ain't no second time to appreciate Ain't no second time to appreciate

First of all, you better count your blessings When you got C.L. now you got bad boy, your connections In return, while we live and we learn then you know what it is To only build a bigger future for the kids

In peace, in war, let's take it to the floor Every time we take two steps the crowd takes four Lay the heat, how I come to the street, how I cut through the beef Let me handle that, that's why you make me chief

It's packed, what they want in this here
Can we weather the storm, six minutes, C.L. Smooth you're on
All the anger and the fear was in the dressing room prayer
That we came out to light it up and put it in the air

That's real, so holler back at ya boy, step aside Leroy
To all my ladies, who want tickets, enjoy
'Cause I spit it and you gotta get with it and you'll never forget it
Yes, I want the best out, count 'em all

Ain't no second time to appreciate

To the fans and to all my people that supported us

Ain't no second time to appreciate

To the mama and the daddy and everything they taught us

Ain't no second time to appreciate
Tell them kids they gotta stay in school or ride with us
Ain't no second time to appreciate
When it all goes down, baby, all we got is us

You tell 'em this is history in the making, avoiding disasters This run is for the green jacket, I fit the masters My crew havin' business, save, put it in through my office The security is tight and the secretary is gorgeous

That's official, me and Pete in the lab, that's what they want Pushin' that real hip hop up to the front
The game's been good to me, preserved my youth
Not only did it capture my goals and told me the truth

Look out my hustle, made a living, paid and driven

See why they tour around the world came to save us from prison

It's great, I rather love than hate

You think it fell out the sky, I'm here to tell you, why believe in faith

Hard work payin' of and them wishes comin' true Bolt open and you out to lunch and left us two Now you know we can't let that pass to get that cash We in the big numbers, count 'em all

Ain't no second time to appreciate

To the fans and to all my people that supported us Ain't no second time to appreciate

To the mama and the daddy and everything they taught us

Ain't no second time to appreciate Tell them kids they gotta stay in school or ride with us Ain't no second time to appreciate When it all goes down, baby, all we got is us

Why my uncle doc left me everything when he died And when pop passed, two weeks later I cried And when great grandma left it all went crazy now All I had left was grandma Pam, that's my baby

Can't talk bad about me, she tell 'em why we need to give her All those roses while she could smell 'em I live this moment used to stay how we was How my mother came to her in a dream and told her

Corey will come out of this deep dark depression, stand by me Give my insight a resurrection and heal me
And feel me, what you got is to love, got a thing
This little woman who brought back the thug, let's grind

Ghetto's of the mind while I'm in my prime
I left, so y'all can catch up, I'm ahead of my time
Your legacy and that lazy boy say it ain't fear
My next generation triple my digits, add 'em up like

Ain't no second time to appreciate

To the fans and to all my people that supported us

Ain't no second time to appreciate

To the mama and the daddy and everything they taught us

Ain't no second time to appreciate

Tell them kids they gotta stay in school or ride with us

Ain't no second time to appreciate

When it all goes down, baby, all we got is us
