

Greyhound Girl

Pete Townshend

Each time we come here
I see we'll never come here again
Each time we make love
I say we'll never make love again
But, my little greyhound girl
You got me running, down the flat
But, my little greyhound girl
I'm in your dreams

Each time we ride out
I say we'll never ride out again
And, when we kiss
I say we'll never, never kiss again
But, my little greyhound girl
You got me running down the flat
My little greyhound girl
I'm in your dreams

I'm looking for reasons
I'm looking for reasons

But there ain't a why or a where
for to live around my little greyhound girl
You've got me running, down the flat
My little greyhound girl
I'm in your track
