

# Greyhound Girl

Pete Townshend

Each time we come here  
I see we'll never come here again  
Each time we make love  
I say we'll never make love again  
But, my little greyhound girl  
You got me running, down the flat  
But, my little greyhound girl  
I'm in your dreams

Each time we ride out  
I say we'll never ride out again  
And, when we kiss  
I say we'll never, never kiss again  
But, my little greyhound girl  
You got me running down the flat  
My little greyhound girl  
I'm in your dreams

I'm looking for reasons  
I'm looking for reasons

But there ain't a why or a where  
for to live around my little greyhound girl  
You've got me running, down the flat  
My little greyhound girl  
I'm in your track
