## **Just For A Moment**

## **Pete Townshend**

I've been a drinking, biding my time; I've loaded and wasted, by my design I've been using myself, like I only I can, but I understand that you understand.

Cos just for a moment, I found my peace; just for a moment, I came across me; everything is, and there's nothing a-missing, well just for a moment, I found my bliss.

Just for a moment I found my peace; well just for a moment, I came across me; everything is, and there's nothing a-missing; just for a moment, I was complete.
