Any tough can fight, few can play.
Any fool can fall, few can lay.
Any stud can reproduce, few can please.
Any boy can pay a bill, you can tease.

I just wanna be popular
I just wanna be popular
I don't really care who you are
I just wanna be popular

Any man can claim, few can find.
Any girl can blink, few can lie.
Any soul can sleep, few can die.
Any wimp can weep, few can cry.

I just wanna be popular
I just wanna be popular
I don't really care who you are
I just wanna be popular

I wanna be more popular than the rest
I'll do anything I think will impress
Everyone is average but I just wanna be the best
Everything I do has to be as fact and interest
Popular
I wanna be popular
I just gotta be popular

Any brain can hide, but few can stand.
Any kid can fly, a few can land.
Any gang can scatter, few can form.
Any child can chatter, few can storm.

Anyone can fight, few can play.
Anyone can try, but few can stay.
Anyone can cuss, but few can lay.
Everyone complains, buy you can say.

I just wanna be popular
I just wanna be popular
I don't really care who you are
I just wanna be popular

I just gotta be popular, popular
I just gotta be popular, popular
I don't really care who you are
I just wanna be popular
