

# Teresa

Pete Townshend

Teresa, I had no idea how much I'd need her  
Take me home and teach me how to feed her  
My heart is palpitating and I guess wrong  
But I guess I'll get along  
She's just a girl

Teresa, all I ever want to do is please her  
She pulls me up and kissed me what's the reason  
I just keep on crashing down and I guess wrong  
I guess I'll get along  
She's just a girl

I don't know if I love her  
Passion

Teresa, just a girl, just a girl  
Teresa, she's just a girl, just a girl  
Teresa, just a girl, just a girl  
Teresa , just a girl

She's just a girl  
Just a fucking girl

Teresa, my heart felt like a shattered glass in an acid bath  
I feel like one of those flattened ants you find on a crazy path  
I'd of topped myself to give you time you don't need to ask  
I'm a suicidal psychopath  
Your just a girl - your just a girl

Consumed, there's a beautiful white horse I saw on a dream stage  
He had a snake the size of a sewer pipe living in his rib cage  
I feel like a pickled priest who was being flambé

It's an inquisition Blondie  
Just a girl - I'm happy  
I'm fucking ecstatic- lucky, lucky

Just a girl just a girl  
Just a girl just a girl  
Just a girl just a girl  
Just a girl

Teresa, you picked me up by my lapels and screamed "cheater"  
It's like waking up in heaven on an empty meter  
I know you're in love with a man who's really a leader  
I hate the cunt, I don't mean that  
I just said it  
Forget it, please  
It is a girl  
Ahh  
It's just a girl  
yea yea yea yea just a girl

Your just a girl  
Just a fucking girl
