

# Future Life

Pete Yorn

This future life's been freaking me out  
Still attached to being the new kid in town  
No family, no real responsibilities  
In my friends, they're diving in deep  
To all this holy matrimony

House, a dog, two kids and a van  
Good jobs in real estate, a fireman  
Why the hell does it scare the shit out of me  
Am I different, am I afraid

Life's been great to me  
It feels a little sad  
Gotta break out of here  
Appreciate what I have

Life's been great to me  
It feels a little sad  
Gotta break out of here  
Appreciate what I have

Why do I want what I haven't got  
So planted on the things that I want  
Making pretty all these memories  
Cause it's easy to get stuck

The spirit lives been guiding me out  
A love so strong, erasing all of my doubt  
I see a future that was made for me  
Wherever I may go

Life's been great to me  
It feels a little sad  
Gotta break out of here  
Appreciate what I have

Life's been great to me  
Oh, yeah, it feels a little sad  
Gotta break out of here  
Appreciate what I have

Cause it's easy to get stuck  
It happens a lot  
Cause it's easy to get stuck  
It happens

I can't avoid anything  
Got to take it all in  
Take a battle stance  
I know that I can win

It's cliché of time, I know it must be true  
When what you want is what you have  
Then you know you found you

Life's been great to me  
Oh, yeah, it feels a little sad

Gotta break out of here  
Appreciate what I have

Life's been great to me  
Oh, yeah, it feels a little sad  
Gotta break out of here  
Appreciate what I have

Life's been great to me  
Life's been great  
Life's been great to me  
Life's been great

Oh oh

Life's been great to me  
Life
