

Pass Me By

Pete Yorn

The words you never cared to say
I want to find a better place
When we rely on something more than this
And even as I try to sleep
I'm looking for my best friends
I'm tired of all the people I'm seeing through
(The) Same idea:
It makes me wonder why I'm here
And even when I try to sleep
Still looking for my best friend
When we rely on something more than this
The words you never cared to say,
