

Let's Burn

Peter and the Test Tube Babies

I've always played with fire since when I was quite young, and now I've joined a gang who share my type of fun. Now schools and shops and houses are all down on our list, we are the ones responsible 'cos we are arsonists.

We'll burn everything in sight, we'll even set you alight, we live for the fire and flames

We love the damage and destruction that is caused by fire, we always stay upon the scene to watch the flames go higher. We love to watch things burning love the smell and the sound, we'll put match to anything to raze it to the ground.

The cops are gonna get us that's what the papers say, but we're still lighting fires and getting clean away. But if they got me cornered they wouldn't have me anyway, 'cos I'd soak myself in petrol and I'd set myself ablaze.
