

All About Us

Peter Andre

Just swing it, from the front to the back to the side
Till it makes you feel all right, said it's all about us tonight
.right. (2x)

I want you all to myself
Tonight girl, can't think of anyone else
Our friends will just have to realise
Tonight is for you and I

My friends will have to understand that tonight is all about us
But your friends can make some other plans cos' tonight is all about
us

This feeling must be the best in the world
How can I just get closer to you girl
I wonder what kind of day it would be
If there were no you for me

Now I've been all around the world
but there's no place like being with you girl
Cos' you make me smile

My friends will have to understand that tonight is all about us
But your friends can make some other plans cos' tonight is all about
us (2x)

Now I've been all around the world
but there's no place like being with you girl
Cos' you make me smile

Yeah here I come
What about your friends I don't wanna couse no shit
But if ya slippin' back messages then come garage equipped
I'd flip ya twice just to find you're masculinityflex
Cos' if we're sexen on a platter ain't no need to get wet
I'd set it up around nine if you got the clock
No entourage just you on the solo spot
Who'll make it hot hot bumpin' in the back of your jeep
It's Bo Peep so you'd just better creep with me
You've been around the universe girls throwing your skirts
Pancakes wanna spread but the butter ain't worth
Silky silky you're the only vibe for me
You don't hevve to worry 'bout me tryin' to ride for free
Cos' in return I'm a burn assets arise
Naughty with the gridlock make your nature rise
Comprimise with the caramel chocolate bite
No company 'cos it's all about us tonight

My friends will have to understand that tonight is all about us
But your friends can make some other plans cos' tonight is all about
us
