

# All Night All Right

Peter Andre

If you feel it in your soul  
Let the music take control....all night all right  
Time to get your party on  
Do it till the break of dawn....all night all right

Everybody knows about the place to be  
Especially on a night like tonight  
And baby i can't help but thinkin' you should be with me  
At ten to two a two's a ten  
I'm about to lose control

If you feel it in your soul  
Let the music take control....all night all right  
Time to get your party on  
Do it till the break of dawn....all night all right

Like to see you movin' to your favorite tune  
The way you work that body get's me in the mood  
I can't help but wonderin' if you'll stay with me  
It's ten to nine you're looking fine  
And i can't help but vibe, vibe

Cos honey you're on my mind so fine

Wanna see you groove all night all night all night long  
Can you help me  
I'm about to lose control

Yeh buddy...yes yes y'all, get up off the wall  
You can get down or you can get clowned  
One for the treble and two for the bass  
Three to get steady is everybody ready  
If it's all night then it's all right no  
Pass me the mic and watch the party smoke  
Heat it up and you can speed it up  
Gonna scratch a little bit, but don't beat it up  
While your posted in position by the speaker  
You could be out on the floor with tamika tryin' to freak her  
Peter better go grab janet  
And don't let her go god damn it  
When he asks you to dance you better not say no  
What the hell you come in here for  
Are you lookin for some action or satisfaction or a physical attraction

If you feel it in your soul  
Let the music take control....all night all right  
Time to get your party on  
Do it till the break of dawn....all night all right

If you feel it in your soul  
Let the music take control....all night all right  
Time to get your party on  
Do it till the break of dawn....all night all right

It's in your soul just take control...all right  
It's going on till break of dawn...all right

If you feel it in your soul  
Let the music take control....all night all right  
Time to get your party on  
Do it till the break of dawn....all night all right
