

## Nice 'N' Slow

Peter Andre

Say it girl, what's on your mind  
Are we really for each other?  
Trust in me and what I have to do  
Let me touch like no other

Lady take it slow  
So we can let our feelings grow  
Give me your lovin' baby  
I'll be your lover darling

I sad, take it nice and slow  
So we can last forever more  
Give me your lovin'  
I'll be your lover tonight

I wanna take it nice 'n' slow  
Baby there's so much I wanna show  
I wanna take it nice 'n' slow, yeah  
We should take it nice 'n' slow

Baby make it all night long  
We should take it nice 'n' slow baby

All I know is how I'm feeling now  
Can I be with you my lady?  
All I want is just to make it last  
Without your love i;m going crazy

Lady take it slow  
So we can let our feelings grow  
Give me your love  
I'll be your lover, tonight

Ya know baby, I need your love  
Give me your love  
Give me your lovin' baby  
I wanna know, I wanna know  
Give me your love, give me your love, tonight
