

# Black Book

Peter Bjorn and John

Please put down your guitar before it goes too far  
Your music sounds like shit, how many times do I have to say it  
?

You talk and talk and talk about how things should work  
There's no alternative, how many times do we have to hear it?

I can do everything you do, just a little worse

Please don't be stupid sir, your opinion is disturbed  
You say you want control but in my protocol you're falling

We're past the turning point, now money equals blood  
You say it's not your fault  
But how many times do we have to pay for it?
