

## Blue Period Picasso

Peter Bjorn and John

I'm a blue period Picasso stuck on a wall  
In a middle of a hall in Barcelona  
Trying to figure out how to get down  
Because this solitude is bringing me down  
The painting's surround me,  
They don't understand me  
I'm too early  
I've seen this development  
Curing this duller sense

But I'm not just being blue  
Because I have form, and shape, and color too  
And I miss you and this Compton  
That is the focus  
That is what all the school is reading to us  
I'm just a part of what I am  
It's just a part of my beating heart  
Beating for you

So I beg you please,  
Please wrap me up, please take me out  
Please hold me close on to your breast  
Run down the stairs, out in open air  
Away from the ladies, the Japanese tourists  
Thank God for motors because I'm so hopeless  
Take me wherever you really came from  
You will be famous, seen in the headlines  
Though you  
Just kindly stole my heart (Seen in the headlines)  
Though you  
Just kindly stole my heart (A world famous art thieves)
