

Down Like Me

Peter Bjorn and John

I have been, inside you war zone
And I've seen, you drop your poison
You compromise the steal
Telling people how you feel
Though it's not a bit for real
But the dollar it gives you wills
And you're longing to be free
But no one brings me down, like me
No one brings me down like me

Have you heard? When greed meets hunger
How absurd, the weak is stronger
Cause when they are satisfied
They sigh and wipe their mouth
And they sleep til they awake
But for you there's too much at stake
You have to plan the next big break
You rest when you are dead like me
Rest when you are dead, like me
Down like me
Down like me

No one brings me down down down
Down like me
[repeat 5x]
