## **Peter Bjorn and John**

I don't wanna make you interested.
I just wanna make you the only one.

I don't wanna ask myself forever Why I didn't put myself together? As soon as you appeared into my eyes

I don't wanna lose this (Don't wanna wait) Quicker than a kiss (Not a second too late) Wrap it like it mattered (Look what you did) Being just one step from being well

I don't have any vocabulary
But I hear myself please go away

Acting like six or seven
But I'm really close to heaven
I don't need to look further than your eyes

I don't wanna lose this (Don't wanna wait) Quicker than a kiss (Not a second too late) Wrap it like it mattered (Look what you did) Being just one step from being well
