

# I Know You Don't Love Me

Peter Bjorn and John

I have been inside your war zone  
and I've seen, you drop your poison  
you compromise the steal  
telling people how you feel  
though it's not a bit for real  
but the dollar it gives you wills  
and you're longing to be free  
but no one brings me down, like me  
no one bring me down like me

have you heard? when greed meets hunger  
how absurd, the weak is stronger  
cause when they are satisfied  
they sigh and wipe their mouth  
and they sleep til they awake  
but for you there's too much at stake  
you have to plan the next big break  
you rest when you are dead like me  
rest when you are dead, like me

down like me  
down like me  
no one brings me down down down (3x)

no one brings me down down down down  
down like me (2x)
