

The Feeling

Peter Bjorn and John

I feel it, can you feel it?
There's something in the air.
I feel it, can you feel it?
There's something in the air.
I feel it, can you feel it?
There's something in the air.

I'm feeling that all the things we are is enough
It's just about time, been waiting for signs
Last time we got high
We thought we had the puzzle worked out

But drink up with your eyes
We're tired of being washed out
You don't need my advice
We just need to stop saying goodbye.

It's hard to understand
It's easy to make things land
We know how to walk out
But not how to get in

It's hard to understand
The answer is in your hands
Start turning down the fans
But please prepare for change

I feel it, can you feel it?
There's something in the air.
I feel it, can you feel it?
There's something in the air.

I feel it, can you feel it?
There's something in the air.
I feel it, can you feel it?
There's something in the air.

I feel this, can you feel this?
I feel this, can you feel this?
I feel this, can you feel this?
I feel this, can you feel this?

I feel this, I feel this, I feel this,
I feel this, I feel this, I feel this,
I feel this, I feel this,
