

# Be Still My Heart

Peter Bradley Adams

I don't know how love begins  
It moves too fast for me to tell  
I'll raise a flag to catch the wind  
Safe at the bottom of a well

It came and went just like a spark  
And lit a fire in my head  
It burned a hole right through my heart  
And left a ghost beside my bed

You walk before me  
A shape in the dark  
A shape in the dark  
These dreams they hold me  
And tear me apart  
They tear me apart

Be still my heart  
Be still my heart

One more time before I fall  
I'm gonna stand within your reach  
And throw my head against the wall  
And break the promises I keep

Some day before me  
There's peace in the night  
There's peace in the night  
Someday you'll show me  
It all worked out right  
It all worked out right

Be still my heart  
Be still my heart  
Be still my heart  
Be still my heart
