

I Won't

Peter Bradley Adams

Oh, here you come, same as before
At my back door to see it again
Tell me you've grown, tell me you've found
Somewhere just out of town

You ask if I wanna go
I don't want to hold on anymore
I won't follow you down that road
You know that I won't

I could let you and let you try again
But how would it ever end?
Oh, how would it ever end?

You ask if I wanna go
I don't want to hold on anymore
I won't follow you down that road
You know that I won't, I won't

Will you ask if I wanna go?
I don't want to hold on anymore
I won't follow you down that road
You know that I won't, I won't
