

Faithfully

Peter Cetera

Some say it's just the nature of the beast
When you love somebody so passionately
Time has a way of stealing
That raging fire you're feeling
Leaving the ashes laying at your feet

Those fools of little faith will never know
Those higher places two hearts can go
Where time is standing still
And love will burn until
The heaven and the earth have come and gone

This fire inside for you
Is constant as the northern star
And you will be
Forever in my heart
As long as there's a river
Searching for an endless sea
I will always love you - Faithfully

Tonight we'll raise a glass to lovers
Across the ages
We'll hold each other and toast to the day
When history's said and done
And we'll still stand as one
Something's were never meant to fade away

This fire inside for you
Is constant as the northern star
And you will be
Forever in my heart
As long as there's a river
Searching for an endless sea
I will always love you - Faithfully
