## Faithfully

**Peter Cetera** 

Some say it's just the nature of the beast When you love somebody so passionately Time has a way of stealing That raging fire you're feeling Leaving the ashes laying at your feet

Those fools of little faith will never know Those higher places two hearts can go Where time is standing still And love will burn until The heaven and the earth have come and gone

This fire inside for you Is constant as the northern star And you will be Forever in my heart As long as there's a river Searching for an endless sea I will always love you - Faithfully

Tonight we'll raise a glass to lovers Across the ages We'll hold eahc other and toast to the day When history's said and done And we'll still stand as one Something's were never meant to fade away

This fire inside for you Is constant as the northern star And you will be Forever in my heart As long as there's a river Searching for an endless sea I will always love you - Faithfully
