

Rain Love

Peter Cetera

Rain, rain love, rain, rain love
Rain, rain love, rain, rain love

Threw out my old raincoat, set sail without a boat
For places somewhere far beyond my dreams
As the sky came pouring down, I lay down on the ground
Like I was dreaming, I let the feeling wash all over me

Rain love covered around me
Rain, rain love finally found me
This time you're gonna recognize
One drop will open up your eyes, rain love

It's the color of every sky, it's the way to change the tide
When the world is crumbling down on you and me
It's the calm that lifts the storm, it's the promise that keeps
you warm
When you don't understand, just touch the guiding hand that com
forts me

Rain love

Takes this lot to make you realize
No greater love could ever fill the sky

Rain love
