

## Rain Love

Peter Cetera

Rain, rain love, rain, rain love  
Rain, rain love, rain, rain love

Threw out my old raincoat, set sail without a boat  
For places somewhere far beyond my dreams  
As the sky came pouring down, I lay down on the ground  
Like I was dreaming, I let the feeling wash all over me

Rain love covered around me  
Rain, rain love finally found me  
This time you're gonna recognize  
One drop will open up your eyes, rain love

It's the color of every sky, it's the way to change the tide  
When the world is crumbling down on you and me  
It's the calm that lifts the storm, it's the promise that keeps  
you warm  
When you don't understand, just touch the guiding hand that com  
forts me

Rain love

Takes this lot to make you realize  
No greater love could ever fill the sky

Rain love
