

Always Watching You

Peter Cincotti

There's so much on my mind
And there's so much more I gotta do
Well I'm working through the night
But I just can't stop watching you

I gotta keep looking out through the window
Trying to read your mind
I'm looking at you lying down on your pillow
Wishing I was by your side
I'm trying so hard
But I can't keep my mind on anything I do
'Cos I'm always watching you
I'm always watching you

Well I watch you close your eyes
And I watch you sleeping by the phone
So beautiful so fine
I can't imagine why you are all alone

So I gotta keep looking out through the window
Trying to read your mind
I'm looking at you lying down on your pillow
Wishing I was by your side
I'm trying so hard
But I can't keep my mind on anything I do
'cCs I'm always watching you
I'm always watching you

And without you ever knowing
I'm going out of my mind
When you leave me everyday
'Cos I wonder where you are going
And I spend all day just waiting for you
But I know I'm gonna be alright
'Cos I'll be watching you tonight

Well I'm trying to get in control
And stop myself from doing wrong
'Cos I can't just risk it all
I've been tide down way too long

I gotta keep looking out through the window
Trying to read your mind
I'm looking at you lying down on your pillow
Wishing I was by your side
I'm trying so hard
But I can't keep my mind on anything I do
'Cos I'm always watching you
I'm always watching you
I'm always watching you
'Cos I'm always watching you
