Give a little feeling there
Yes I know it must be strange
Just lay your hand
And I will lead you tonight

Some of us are cold and bare
Just like you but I don't care
Everything will be so fine
So come outta there

Everytime I see you dancing
I'm feelin' that I'm loosing shame
Go on we will dance together
The night is ours there's nothing to waste

I don't wanna loose your fate
I don't wanna cry your name
I don't wanna feel your body next to mine
I don't wanna feel your heart
Till tomorrow evening
I don't wanna touch your hand
Till tomorrow night

Everytime I see you dancing
I'm feelin' that I'm loosing shame
Go on we will dance together
The night is ours there's nothing to waste

Some of us are cold and bare
Just like you but I don't care
Everything will be so fine
So come outta there

Everytime I see you dancing
I'm feelin' that I'm loosing shame
Go on we will dance together
The night is ours there's nothing to waste

Everytime I see you dancing
I'm feelin' that I'm loosing shame
Go on we will dance together
The night is ours there's nothing to waste
