

# There's Nothing Better

Peter Criss

There's nothing better than you  
There's nothing better than me  
They say we broke all the rules  
But that's the way it should be

Honey, right from the start  
No one could tear us apart  
And when the lights go down low  
That's when we really know

Cause honey I love you  
I really really love you  
I love you  
Indeed I do

There's nothing better than you  
There's nothing better than me  
They say we broke all the rules  
But that's the way it should be

Baby, right from the start  
I gave you my heart  
Like a dream come true  
There's nothing better than you

Cause honey I love you  
I really really love you  
I love you  
Indeed I do

You know honey people are jealous of us  
And if they had what we have now they'd know  
They'd know, yeah

There's nothing better than you  
There's nothing better than me  
They say we broke all the rules  
But that's the way it should be

There's nothing better  
Than you and me  
There's nothing better  
Than you and me  
There's nothing better  
Than you and me  
There's nothing better  
Than you and me  
There's nothing better  
Than you and me  
There's nothing better  
Than you and me  
There's nothing better  
Than you and me  
There's nothing better  
Than you and me
