

## Apple Of Your Eye

Peter Frampton

Maybe take just one more look around  
When you need a friend  
To go on the ground  
You must fend for yourself  
Till you win, win the race  
Then you laugh in their face  
Swear me in, I'll testify  
I'll be the apple of your eye

When you count the million eyes on you  
And they're waiting just for what you do  
Don't believe all that you read  
Caught the news  
Like some bad fitting shoes  
Hurts when you laugh  
As you're singing in the back

You can't pretend that your fortune won't end  
You can't believe that you got all you need by your side  
When it comes down to your own peace of mind  
Lose everything including your pride  
And still survive

Maybe take just one more look around  
When you need a friend  
To go on the ground  
You must fend for yourself  
Till you win, win the race  
Then you can laugh in their face  
I'll testify  
I'll be the apple of your eye
