

# Holding On To You

Peter Frampton

I'll be there where the music goes  
I'll be there singing  
Working out my life where the feelings right  
Well the years keep rolling on  
But my heart is strong - I'm holding on

I won't be letting go  
I just started to hold on harder to you  
I won't be letting go  
I just wanted you to know  
I won't be letting go  
I just wanted to hold on harder to you  
All our songs come around again  
And our world's ever turning  
Somehow everyday there's another way  
When my soul's in place  
Every song will trace your smiling face

I won't be letting go  
I just started to hold on harder to you  
I won't be letting go  
I just wanted you to know  
I won't be letting go  
I just wanted to hold on harder to you

All the music that I haven't made  
Keeps my soul alive  
Gotta make it  
For only the song survives

I won't be letting go  
I just started to hold on harder to you  
I won't be letting go  
I just wanted you to know  
I won't be letting go  
I just wanted to hold on harder to you

I'm holding on to you
