

I Won't Let You Down

Peter Frampton

I won't let you down
I won't let you down

I won't fool around
Here in tinsel town
I want you to know
I'll let these feelings flow

Save the world and I'll be there
Some may call me crazy
But I don't really care

It's just the thrill
I don't wanna control
It's like the way
You soothe my very soul
My very soul

I won't let you down
I won't let you down

I won't fool around
Here in tinsel town
Could be a brand new day
So listen while I play

And in the darkest night
Of your longest day
Just feel secure, rest assured
I'll chase the night time away

I won't let you down
I won't let you down

All alone now
No good reason why
This time I can change it
This I'll really try, I'll really try

I won't let you down
I won't let you down
I won't let you down
I won't let you down

I won't let you down
I won't let you down
I'll be there if you call
Please call

Soothe my soul
Why don't you soothe my soul?

Soothe my soul, soothe my soul
Soothe my soul, soothe my soul
Soothe my soul, soothe my soul
