

People All Over The World

Peter Frampton

People Over The World
Reach Out your hand
And touch each other
People Over The World
We are the same
just different colors
We have one life to live
So much to give and so much to share
There is love to be found
Just look around
There's happiness there
People over the world
Love without chains
Like sisters and brothers
Face each day with a smile
And in a while sunshine appears
You'll feel warm deep inside
No need to hide, from danger and fear
People Over The World
Reach Out your hand
And touch each other
People Over The World
We are the same
just different colors
We have one life to live
So much to give and so much to share
There is love to be found
Just look around
There's happiness there
People reach out you hand.
Reach out your hand
