Shine On

Peter Frampton

Find it hard to see you in the dark I looked around you were beside me Don't you realize It's hard to dream Without your helping hand to guide me This could be the one, girl If you will be my sun Shine on Me, shine on me Let it shine on Shine on All I have to do is let it shine on Please look about and tell me what you see All noise and dirt and plastic people Love is clean And ours has been a bluer shade of jade Than black or white is Take me on a ride, girl Right there by my side, oh Shine on Me, shine on you Let it shine on Shine on All I have to do is let it shine on Shine on Me, shine on you Let it shine on Shine on All I have to do is let it shine on, oh baby Shine on Me, shine on you Let it shine on Shine on All I have to do is let it shine on
