

## Verge Of A Thing

Peter Frampton

I'm as wired as a dead man walking  
To the edge of a precipice  
You look at me, wanna hear me talking  
But oh, as hard as I try there's no explaining this

It ain't the wine or the dope that's talking  
It ain't your psychic on Benzedrine  
No, I have been to the mountain and I have a dream  
Baby, we're on the verge of a thing, thing

I think in English but my blood is Russian  
Chasing it down with adrenaline  
I look at you and I see you blushing  
Appearing now in my wildest dreams

It ain't the wine or the dope that's talking  
It ain't your psychic on Benzedrine  
No, I have been to the mountain and I have a dream  
Baby, we're on the verge of a thing, thing

Do we really feel like we do?

It ain't the wine or the dope that's talking  
It ain't your psychic on Benzedrine  
No, I have been to the mountain and I have a dream  
Baby, we're on the verge of a

It ain't the wine or the dope that's talking  
It ain't your psychic on Benzedrine  
No, I have been to the mountain and I have a dream  
Baby, we're on the verge of a thing, thing
