I saw the man at J.F.K. He took your ticket yesterday In the humdrum

I ride tandem with a random
Things don't run the way I planned them
In the humdrum

Hey Valentina, do you want me to beg? You got me cooking I'm a hard boiled egg In the humdrum

Empty my mind - I find it hard to cope
Listen to my heart - don't need no stethoscope

(It) Seem' to me that television She come to cut me a deep incision In the humdrum

Empty my mind - I find it hard to cope
Listen to my heart - don't need no stethoscope

Out of woman come the man

Spend the rest of his life gettin back where he can

As a bow, so a dove

As below, so above

From the black hole

Come the tadpole

With the dark soul

In coal she burn, she burn

As I drove into the sun
Didn't dare look where I had begun
Lost among echoes of things not there
Watching the sound forming shapes in the air
From the white star
Came the bright scar
Our amobea
