## **No Self Control**

## **Peter Gabriel**

Got to get some food I'm so hungry all the time I don't know how to stop I don't know how to stop

Got to get some sleep I'm so nervous in the night I don't know how to stop No, I don't know how to stop I don't know how to stop I don't know how to stop

Got to pick up the phone I will call any number I will talk to anyone I know I'm gone too far Much too far I gone this time And I don't want to think what I've done I don't know how to stop No, I don't know how to stop

There are always hidden silences Waiting behind the chair They come out when the coast is clear They eat anything that moves I go shaky at the knees Lights go out, stars come down Like a swarm of bees

No self-control

You know I hate to hurt you I hate to see your pain But I don't know how to stop No, I don't know how to stop

Street after street Night after night I walk on through the rain I walk on through the rain I don't know how to stop
