

Take This

Peter Mulvey

How can I possibly tell it
How can I say it all
I've built this story up for so long
I have so far to fall
How can a liar tell the truth
A voice inside me shouts
Well I guess I will find out
Take this from me
Take this from me
Dreams die hard
Ghosts won't go away
When the heart does not agree
You're little mind will say
And say
And say
Lonely is like a needle
Left alone in the vein
The blood goes crazy
The past goes insane

Take this from me
Take this from me
Send it out into the wide world
Take this from me

You must get so tired
I don't see how you stay
When you keep giving everything
And I take it all away
Do you see something I'm missing
Have you seen the master plan
'Cause I don't see how you take this
I don't see how you can
Take this from me
Take this from me
Where is there room in your wide world
How do you take this from me
Somebody take this
