Emergency Unit

Peter Murphy

Save me save me, make me true
Turn turn, let me through
Nothing's hard and nothing's to be gained
Without you

Leave us always looking in the now
Not loosing looking for it

Not loosing looking for You
Guide us always

Save me, save me, say 'you do'
Even as the bird flies
Out in the blue

Out of the blue

Nothing's hard and nothings gained
Without you
