

## Sails Wave Goodbye

Peter Murphy

Dream - the light was shining hard  
And though the lie was the night  
Dream - you were the light and colliding with the stars  
In a way - my guide

And there signs will pave the way that you go  
In the light of the silver Moon

Sails and wave good bye  
Sails and wave good bye

Looking out from a bridge  
Sails wave good bye  
Behind a curtain  
Activate and join  
My mind devoid  
Reinstate my beloved

So, time tells all when we are old and removed  
And we'll side with the silver Moon

Sails and wave good bye  
Sails and wave good bye
