## **The Sweetest Drop**

## Peter Murphy

Roll yourself away from me Unveil me from your layers Lay with me Let me plunder, no betrayal Shame cast out Morning sensual fire aroused Union upon union In union we'll flower Sail naked in our funder Press towards the burst

Drop the sweetest drop Give the thunder up Rocking to the top Sensor none the shame Cling no more to shame Ring me in the morning Take me, take me, in the rain Oh come with me, eh come with me Concur and swallow me Explode secrete your tender Let's scream out like the sea

Pull me warm and slender Concur and swallow me Explode secrete your tender Let's scream out like the sea Union upon union Drop the sweetest drop

I think about you all day Calling the sacred first Rolling the sunlit day Give me what I thirst

Drop the sweetest drop Give the thunder up Rocking to the top Sensor none the shame Cling no more to shame Ring me in the morning Take me, take me in the rain Oh come with me, eh come with me Concur and swallow me Explode secrete your tender Let's scream out like the sea

Roll yourself away Immortal burn alive Rocking to the top Sensor none the shame Cling no more to shame Ring me in the morning Take me, take me, in the rain Oh come with me, eh come with me Concur and swallow me Explode secrete your tender Let's scream out like the sea
