## **The Weight Of Love**

## **Peter Murphy**

The story's still in the works The players fishing ideas Walking in the air The church of Irene

Stands like a warehouse With love's spirit out in the cold Out in the cold Tonight

The actions disappear And let the love's spirit in The fear inside my head Is just a resistance to

The weight of love The weight of love The weight of love The weight of love

The theater with no name Calls a welcome in And music fills the cracks No shadows whispering

(Weight of love) the weight of love (Weight of love) (Weight of love) (Weight of love) (Weight of love) the weight of love
